## ● ABOUT MYSELF

I'm a curious and passionate coder who thrives on learning and exploring new technologies. My love for coding drives me to dive deep into challenges, always seeking to understand how things work. With a strong focus on diligence, I'm committed to seeing projects through to completion, ensuring that every detail is meticulously handled. Whether it's solving complex problems or fine-tuning the smallest aspects of a project, I'm dedicated to delivering high-quality results. You can provide a description of yourself here...

## ● EDUCATION AND TRAINING

31/08/2020 – CURRENT Berlin, Germany  
**BACHELOR CODE Education GmbH**

At university, I developed strong skills in software development and project management. I worked on projects using JavaScript, TypeScript (Vue.js, Nest.js), and Java, while also building CI/CD pipelines with Google Cloud Platform and AWS. I frequently led teams, successfully guiding projects from start to finish. My studies also covered requirement engineering, project management, team management, and the theory of computing, further enhancing my technical and leadership abilities.

30/09/2013 – 14/05/2015 Prishtine, Kosovo

**TOP 0.4% PERFORMER IN THE ATOMI PROJECT FOR IDENTIFICATION AND SUPPORT OF STUDENTS WITH EXTRAORDINARY INTELLIGENCE IN KOSOVO. ATOMI**

**Address** Rr. Tahir Zajmi, Nr. 65, Gjmnazi Matematik, Kati III, Kalabri, 1000, Prishtine, Kosovo | **Website** <https://atomi-ks.org/>

## ● WORK EXPERIENCE

31/03/2021 – 01/06/2024 Berlin, Germany  
**E-COMMERCE DEVELOPER STRIX**

During my time at Strix, I played a key role in several high-impact projects, with a strong focus on backend development, particularly within the extensive Interpneu project, which handled over a million products. My responsibilities included development and configuration in Shopware, where I was involved in both frontend and backend development, plugin creation, and graphic design tasks. I provided essential support to both the development and configuration departments, ensuring seamless operations. Additionally, I organized events and meetings, conducted research, and collaborated on various online and offline marketing projects. As the sole maintainer of four projects simultaneously, I demonstrated strong multitasking abilities and ensured their successful execution. My role also involved assisting with customer support, contributing to a well-rounded experience in managing complex, multifaceted projects.

31/08/2019 – 28/02/2021 Prishtine, Kosovo

**SOFTWARE ENGINEER ELBA TECHNOLOGIES**

The focus of the company was automation. I work a bit with RPA then I got involved with a project that is in PHP ( CodeIgniter 4 ) and Ansible. Later on I developed a module in Python using Django, Flask, and Celery. This module is used for defining and running processes asynchronously.

31/03/2019 – 30/08/2019 Prishtine, Kosovo

**LEAD SOFTWARE DEVELOPER FINANCE MANAGEMENT SOLUTION L.L.C. (WWW.FINANCEMS.DE)**

In a team of four, I contributed to the development of a travel website, where my primary focus was on backend development using CodeIgniter 3. I worked extensively with payment gateway service providers' APIs, ensuring secure and efficient integration of payment solutions into the platform. My role required close collaboration with team members to deliver a seamless and user-friendly travel booking experience.

04/02/2018 – 30/05/2018 Prishtine, Kosovo  
**INTERN BACKEND AND FRONTEND DEVELOPER** MATRIX DIGITAL L.L.C. (WWW.ATIS.AL)

In this role, I leveraged my expertise in Object-Oriented Programming (OOP) to develop robust web applications using a range of technologies. I worked extensively with PHP, JavaScript, and the Laravel framework to build dynamic and scalable solutions. My experience also included using Bootstrap and JQuery for responsive front-end design, managing data with MySQL, and implementing server-side technologies with NodeJS and Nginx. Additionally, I integrated GraphQL for efficient data querying and utilized WordPress for content management, along with various other libraries and technologies to enhance web development projects.

31/05/2018 – 14/01/2019 Prishtine, Kosovo  
**BACKEND DEVELOPER** MATRIX DIGITAL L.L.C. (WWW.ATIS.AL)

In this role, I focused on full-stack web development, utilizing PHP and Java to build and maintain applications. I worked extensively with the Laravel and Lumen frameworks, leveraging their capabilities for efficient and scalable backend development. My responsibilities also included database management using MySQL, server configuration with Nginx, and dependency management with Composer. I collaborated with teams using Git for version control, ensuring smooth and organized development processes. Additionally, I employed various other libraries and technologies to enhance web application performance and functionality.

04/02/2018 – 14/01/2019 Prishtine, Kosovo  
**AUTHORIZED AGENT** MATRIX DIGITAL L.L.C. (WWW.ATIS.AL)

In this role, I was responsible for overseeing all technical aspects of the office, ensuring that operations ran smoothly and efficiently. I also managed the office finances, maintaining accurate records and handling budgeting tasks. Additionally, I took on a leadership role in managing employees and daily operations whenever the CEO was abroad, ensuring continuity and productivity within the team.
